QUESTION 1

You need a Time Entry Rule to run only when one or more of a certain group of Time Attribute values have been entered in the time card.

How should you achieve this?

- A. Define a Time Category that will evaluate to True when the condition for executing the rule has been met and use this in the Time Entry Rule formula to define when the rule will run.
- B. Define an HCM Group that contains the required time attribute values and use this in the Time Entry Rule formula to define when the rule will run.
- C. Define a Time Category that will evaluate to True when the condition for executing the rule has been met and use this in the Time Entry Rule set to define when the rule will run.
- D. Define a Time Category that will evaluate to True when the condition for executing the rule has been met and use this in the Time Entry Rule Template to define when the rule will run.
- E. Define an HCM Group that contains the required time attribute values and use this in the Time Entry Rule set to define when the rule will run.

Correct Answer: E

QUESTION 2

How should you configure a Formula, Template, and Rule to display Time and Labor (TandL) validation rule messages when entering time using the calendar entry dialog box to enter and save entries?

- A. Define a TER formula using a delivered workforce management calendar validation subroutine formula that accesses the worker's schedule/calendar information to display a message when saving the calendar entry from the calendar entry dialog box. Assign the rule to the TER Rule Set and then to the worker via the appropriate profile.
- B. All of the above
- C. Define a TSR Rule Set that calls additional TER as part of the existing assigned TSR Rule Set to execute when the dialog box closes and display a TER message on the Save action. Add the TSR to an existing TSR Rule Set and assign it to the worker via the appropriate profile.
- D. Define a TER formula/template using a delivered workforce management calendar validation function to display either a delivered or customer-defined message when executing the TER. Assign the rule to the TER Rule Set and then to the worker via the appropriate profile.
- E. Define a TCR formula/template using a delivered workforce management calendar validation function to display either a delivered or customer-defined message when executing the TCR. Assign the rule to the TCR Rule Set and then to the worker via the appropriate profile.
- F. Define a Time Device formula using a delivered DBI that accesses the calendar entry dialog page's entries to validate the non time card and calendar entries to display the device message on the calendar entry page. Assign the rule to the TDR Rule Set and then to the worker via the appropriate profile.

Correct Answer: A

QUESTION 3

How should you define a new, single attribute time card field with a new data source for the Project Costing Task time attribute that is dependent on the Project Costing Project value selected?

- A. Define the new time card field as an independent time card field using a properly defined table value set as the new data source.
- B. Define the new time card field as a dependent time card field, using the new data source with a properly defined table value set with the independent time card fields as the required Project Costing ?Expenditure Type time attribute.
- C. Define the new time card field by entering the correct parameters when running the Generate Time Card Fields process.
- D. Only the delivered Project Costing Task time card field may be used in Cloud Time and Labor.
- E. Define the new Task time card field as a dependent time card field using the new data source with a properly defined table value set, defined using the Dependent Field Definition page for the independent Project Costing ?Projects Time Card Field.

Correct Answer: E

QUESTION 4

The Time and Labor Manager of an organization needs to search, edit, and enter time for employees.

What feature should they be given access to?

- A. Timekeeper for Managers
- B. Set-up Manager Work Area
- C. Time Work Area for Workers
- D. Time Management Work Area
- E. Calendar Entry for Workers

Correct Answer: A

https://docs.oracle.com/cd/E18727_01/doc.121/e13521/T83865T412733.htm

QUESTION 5

When selecting delivered formula to use in defining a new template, if two delivered formula accomplish the same results, when must the formula with _AP be selected?

- A. When the formula, template, and rule must access the time card data in an advanced sort order to complete correctly.
- B. When the rule created with the formula/template must access data outside the current time card data.

C. Selecting the formula defined with _AP is not required.

D. When the formula, template, and rule must process first in the rule set. Formula identified with _AP enables additional processing order logic from within the Time and Labor rule processing engine.

Correct Answer: B
