QUESTION 1

Fax machines have made it possible for information to be transmitted to distant locations within minutes, but what about confidential information? Are faxes always secure? To avoid having faxes misdirected, arrange for authorized persons to receive and transmit confidential messages. Always phone the recipient about an incoming confidential fax, and make contact a second time to make sure the fax was received. On the basis of above passage please answer the following question The paragraph best supports the statement that

- A. the majority of faxes contain confidential information.
- B. faxes should not be sent if the information is confidential.
- C. fax machines should be locked up in secure offices.
- D. precautions should be taken before a confidential fax message is sent.
- E. a fax is more timely than other office transmission systems.

Correct Answer: D

The last two sentences point to the need for precautions when sending a fax. There is no indication in the paragraph that choice a is true. Choice b is incorrect because the paragraph indicates that, with caution, confidential faxes can be sent. Choice c is not mentioned. Choice d is vague because it does not define timely; at any rate, a phone call will arrive more quickly than a fax.

QUESTION 2

Ratatouille is a dish that has grown in popularity worldwide over the last few years. Essentially, ratatouille is a vegetable stew, which usually features eggplant, zucchini, tomato, peppers, and garlic, chopped, mixed together, sauteed briefly, and finally, cooked slowly over low heat. As the vegetables cook slowly, they make their own broth, which may be extended with a little tomato paste. The name ratatouille comes from the French word *touiller*, meaning to stir or mix together.

On the basis of above passage please answer the following question

According to the information presented in the passage, what should one do immediately after chopping the vegetables?

- A. saute them
- B. mix them together
- C. cook them slowly over low heat
- D. add tomato paste
- E. add garlic

Correct Answer: B

The actions in choices a, c, and d, come after chopping the vegetables, but not immediately. Choice e is actually mentioned before the direction to chop the vegetables.

QUESTION 3

Off-site disposal of regulated medical wastes remains a viable option for smaller hospitals (those with less than 150 beds). However, some preliminary on-site processing, such as compaction or hydropulping, may be necessary prior to sending the wastes off-site. Compaction reduces the total volume of solid wastes, often reducing transportation and disposal costs, but does not change the hazardous characteristics of the waste. However, compaction may not be economical if transportation and disposal costs are based on weight rather than volume. Hydropulping involves grinding the waste in the presence of an oxidizing fluid, such as hypochlorite solution. One advantage of hydropulping is that waste can be rendered innocuous and reduced in size within the same system. Disadvantages are the added operating burden, difficulty of controlling fugitive emission, and the difficulty of conducting microbiological tests to determine whether all organic matters and infectious organisms from the waste have been destroyed. On-site disposal is a feasible alternative for hospitals generating two tons per day or more total of solid waste. Common treatment techniques include steam sterilization and incineration. Although other options are available, incineration is currently the preferred method for on-site treatment of hospital waste. A properly designed, maintained, and operated incinerator achieves a relatively high level of organism destruction. Incineration reduces the weight and volume of the waste as much as 95 percent and is especially appropriate for pathological wastes. On the basis of above passage please answer the following question For hospitals that dispose of waste on their own premises, the optimum treatment method is

- A. incineration.
- B. compaction.
- C. sterilization.
- D. hydropulping.
- E. grinding.

Correct Answer: A

See the last sentence of the third paragraph, which states that incineration is . . . the preferred method for on-site treatment. The other choices take place off-site.

QUESTION 4

OConnell Street is the main thoroughfare of Dublin City. Although it is not a particularly long street, Dubliners will tell the visitor proudly that it is the widest street in all of Europe. This claim usually meets with protests, especially from French tourists, claiming the Champs Elysees of Paris as Europes widest street. But the witty Dubliner will not relinquish bragging rights easily and will trump the French visitor with a fine distinction: the Champs Elysees is a boulevard; OConnell is a street. Divided by several important monuments running the length of its center, the street is named for Daniel OConnell, an Irish patriot. _____ .OConnell stands high above the unhurried crowds of shoppers, business people, and students on a sturdy column, surrounded by four serene angels seated at each corner of the monuments base. Further up the street is the famous General Post Office that the locals affectionately call "the GPO." During the 1916 rebellion, the GPO was taken over and occupied by the Irish rebels to British rule, sparking weeks of armed combat in the citys center. To this day, the angels of OConnells monument bear the marks of the fighting: one sits reading calmly, apparently unaware of the bullet hole dimpling her upper arm; another, reaching out to stroke the ears of a huge bronze Irish wolfhound, has survived what should be a mortal wound to her heart. On the basis of above passage please answer the following question What is the best definition for the word "trump" as it is used in the first paragraph of the passage?

- A. to trumpet loudly, to blare or drown out
- B. to trample

C. to get the better of by using a key or hidden resource

D. to devise a fraud, to employ trickery

E. to use a particular suit of cards

Correct Answer: C

The hidden or key resource mentioned in the passage is the fine distinction between the definition of street and boulevard, which is used to win the argument with or get the better of tourists. Answers a, b, and e do not make sense; answer d is incorrect because there is no real fraud used in the argument in the passage.

QUESTION 5

On the basis of above table please answer the following question What percentage of the Baidya caste men are employed in the legal profession?

DISTRIBUTION OF OCCUPATIONS OF 200 ADULT MALES IN THE BAIDYA CASTE MADARIPUR VILLAGE. BENGAL, 1914	
Occupation	Number
Farmers	02
Government service, clerks	44
Landowners	08
Lawyers	06
Newspapers and presses	05
No occupation	25
Not recorded	08
Students	68
Teachers	11
Trade and commerce	23

A. 12%

B. 0.3%

C. 6%

D. 3%

E. 1.2%

Correct Answer: D
