

D-ISM-FN-23^{Q&As}

Dell Information Storage and Management Foundations 2023 Exam

Pass EMC D-ISM-FN-23 Exam with 100% Guarantee

Free Download Real Questions & Answers **PDF** and **VCE** file from:

<https://www.geekcert.com/d-ism-fn-23.html>

100% Passing Guarantee
100% Money Back Assurance

Following Questions and Answers are all new published by EMC
Official Exam Center

-  **Instant Download** After Purchase
-  **100% Money Back** Guarantee
-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

QUESTION 1

Which type of machine learning algorithm produces results using a reward and feedback mechanism?

- A. Reinforcement learning
- B. Unsupervised learning
- C. Traditional learning
- D. Supervised learning

Correct Answer: A

QUESTION 2

Which is a characteristic of RAID 6?

- A. Double parity
- B. Single parity
- C. All parity stored on a single disk
- D. Parity not used

Correct Answer: A

QUESTION 3

Which standard provides lossless transport to an FCoE Ethernet network?

- A. Data Center Bridging Capability Exchange
- B. Priority-based Flow Control
- C. Remote Direct Memory Access
- D. Data Center Bridging

Correct Answer: D

QUESTION 4

When should FCIP be used to interconnect FC SANs?

- A. to converge FC and IP tra c onto a single network transport within a distance of 200 km
- B. to interconnect local and remote FC SANs at distances within 200 km
- C. to converge FC and IP tra c onto a single network transport at distances greater than 200 km
- D. to interconnect local and remote FC SANs at distances greater than 200 km

Correct Answer: D

QUESTION 5

What set of factors are used to calculate the disk service time of a hard disk drive?

- A. Seek time Rotational latency Data transfer rate
- B. Seek time Rotational latency I/O operations per second
- C. Seek time Rotational latency RAID level
- D. Seek time Rotational latency Bandwidth

Correct Answer: A
