### QUESTION 1

A data analyst is processing a complex aggregation on a table with zero null values and their query returns the following result:

| <b>group_1</b> | <b>group_2</b> | <b>sum</b> |
|----------------|----------------|------------|
| null           | null           | 100        |
| null           | Y              | 70         |
| null           | Z              | 30         |
| A              | null           | 50         |
| A              | Y              | 30         |
| A              | Z              | 20         |
| B              | null           | 50         |
| B              | Y              | 40         |
| B              | Z              | 10         |

Which of the following queries did the analyst run to obtain the above result?

A. 

```
SELECT
    group_1,
    group_2,
    count(values) AS count
FROM my_table
GROUP BY group 1, group 2 INCLUDING NULL;
```

B. 

```
SELECT
    group_1,
    group_2,
    count(values) AS count
FROM my_table
GROUP BY group_1, group_2 WITH ROLLUP;
```

C. 

```
SELECT
    group_1,
    group_2,
    count(values) AS count
FROM my_table
GROUP BY group_1, group 2;
```

D. 

```
SELECT
    group_1,
    group_2,
    count(values) AS count
FROM my_table
GROUP BY group_1, group_2, (group_1, group_2);
```

E. 

```
SELECT
    group_1,
    group_2,
    count(values) AS count
FROM my_table
GROUP BY group_1, group_2 WITH CUBE;
```

A. Option A

B. Option B

C. Option C

D. Option D

E. Option E

Correct Answer: E

---

## QUESTION 2

A data analyst has been asked to configure an alert for a query that returns the income in the accounts\_receivable table for a date range. The date range is configurable using a Date query parameter.

The Alert does not work.

Which of the following describes why the Alert does not work?

A. Alerts don't work with queries that access tables.

B. Queries that return results based on dates cannot be used with Alerts.

C. The wrong query parameter is being used. Alerts only work with Date and Time query parameters.

D. Queries that use query parameters cannot be used with Alerts.

E. The wrong query parameter is being used. Alerts only work with dropdown list query parameters, not dates.

Correct Answer: D

---

## QUESTION 3

A data analyst creates a Databricks SQL Query where the result set has the following schema:

```
region STRINGnumber_of_customer INT
```

When the analyst clicks on the "Add visualization" button on the SQL Editor page, which of the following types of visualizations will be selected by default?

A. Violin Chart

B. Line Chart

C. Bar Chart

D. Histogram

E. There is no default. The user must choose a visualization type.

Correct Answer: C

---

#### QUESTION 4

A data engineering team has created a Structured Streaming pipeline that processes data in micro-batches and populates gold-level tables. The microbatches are triggered every minute.

A data analyst has created a dashboard based on this gold-level data. The project stakeholders want to see the results in the dashboard updated within one minute or less of new data becoming available within the gold-level tables.

Which of the following cautions should the data analyst share prior to setting up the dashboard to complete this task?

- A. The required compute resources could be costly
- B. The gold-level tables are not appropriately clean for business reporting
- C. The streaming data is not an appropriate data source for a dashboard
- D. The streaming cluster is not fault tolerant
- E. The dashboard cannot be refreshed that quickly

Correct Answer: A

#### QUESTION 5

A data analyst wants to create a dashboard with three main sections: Development, Testing, and Production. They want all three sections on the same dashboard, but they want to clearly designate the sections using text on the dashboard. Which of the following tools can the data analyst use to designate the Development, Testing, and Production sections using text?

- A. Separate endpoints for each section
- B. Separate queries for each section
- C. Markdown-based text boxes
- D. Direct text written into the dashboard in editing mode
- E. Separate color palettes for each section

Correct Answer: C
