QUESTION 1

DRAG DROP

Match the security description to the term that best fits. Options are used only once.

Select and Place:

Term	Answer Area	Description
Accounting	<input type="text"/>	used to match a credential that is being submitted to an account representing the client
Authentication	<input type="text"/>	applying access decisions based on attributes attached to the user's account
Client	<input type="text"/>	the owner of an endpoint that is providing credentials
Authorization	<input type="text"/>	the device which consumes networks resources
User	<input type="text"/>	gathering the start and stop times of network access and ongoing health checks of an endpoint

Correct Answer:

Term	Answer Area	Description
<input type="text"/>	Authentication	used to match a credential that is being submitted to an account representing the client
<input type="text"/>	Authorization	applying access decisions based on attributes attached to the user's account
<input type="text"/>	User	the owner of an endpoint that is providing credentials
<input type="text"/>	Client	the device which consumes networks resources
<input type="text"/>	Accounting	gathering the start and stop times of network access and ongoing health checks of an endpoint

QUESTION 2

What is the significance of using the [Allow ALL MAC AUTH] as an Authentication Method for Guests?

- A. Client attempts will fail without an additional Authentication method applied.
- B. All clients with unknown endpoints will be granted guest access regardless of authorization.
- C. All clients with known endpoints will be granted guest access regardless of authorization.
- D. This removes the reliance on the known or unknown status for MAC authentication.

Correct Answer: D

QUESTION 3

An organization wants to have guests connect their own personal devices to the wireless network without requiring a receptionist setting up a guest account.

Which ClearPass feature can be used to meet the organization's requirements?

- A. Policy Manager Enforcement
- B. MAC authentication with profiling
- C. ClearPass Onboard
- D. Guest with self-registration

Correct Answer: D

QUESTION 4

Which actions are necessary to set up a ClearPass guest captive portal web login page to execute with no errors? (Choose two.)

- A. Configure the vendor settings in the Web Login page to match the Network Access Device (NAD).
- B. Install a publicly signed HTTPS certificate in ClearPass and the Network Access Device (NAD).
- C. Install an enterprise Certificate Authority (CA) signed HTTPS certificate in the Network Access Device (NAD).
- D. Install an enterprise Certificate Authority (CA) signed HTTPS certificate in ClearPass and the Network Access Device (NAD).
- E. Configure the vendor settings in the Network Access Device (NAD) to match the web login page.

Correct Answer: BE

QUESTION 5

Refer to the exhibit.

Services - Aruba 802.1X Secure Wireless

Summary	Service	Authentication	Authorization	Roles	Enforcement	Profiler
Use Cached Results:	<input type="checkbox"/> Use cached Roles and Posture attributes from previous sessions					
Enforcement Policy:	aruba wireless enforcement policy · Modify					
Enforcement Policy Details						
Description:	Aruba wireless Enforcement policy					
Default Profile:	[Deny Access Profile]					
Rules Evaluation Algorithm:	first-applicable					
Conditions			Enforcement Profiles			
1.	(Authorization: [Endpoints Repository]:Category NOT_EXISTS)			assign profile only role		
2.	(Tips:Role EQUALS corporate_user) AND (Tips:Role EQUALS computer)			assign employee full role		
3.	(Tips:Role EQUALS corporate_user) AND (Tips:Role EQUALS smart_phone)			assign employee smart role		
4.	(Tips:Role EQUALS temp_user)			assign temp access role		
5.	(Tips:Role EQUALS temp_user) AND (Tips:Role EQUALS smart_phone)			assign employee smart role		

What is true regarding leaving the indicated option "Use cached Roles and Posture attributes from previous sessions" unchecked?

- A. A posture change applied to an endpoint is going to be lost each time the client re-authenticates.
- B. The service will make the enforcement decision based upon the updated Posture regardless of caching.
- C. Posturing will no longer be evaluated in determining the enforcement policy for current or future sessions.
- D. Cached posture results are no longer stored by ClearPass but instead are saved to the endpoint of the client.

Correct Answer: A
