QUESTION 1

A team just developed a new feature on the company\'s main web application. An IT associate wants to test this new feature by making it available for only 10% of the users. If everything works without any problems for a week, the associate will then make it available for all users. Which release type should be used to achieve this goal?

A. Canary release

B. Experimental release

C. Alpha release

D. Beta release

Correct Answer: A

QUESTION 2

An IT associate is working with a video streaming provider. What is a common approach to reduce bandwidth cost while supporting the same or an increasing number of video streams and customers?

A. Stop serving the video streams when a certain price limit is reached.

B. Reduce the bitrate to reduce the size of the video streams.

C. Serve the video streams only to a limited number of users at a time.

D. Use a content delivery network to distribute the streams.

Correct Answer: D

QUESTION 3

An IT associate has a web application running on multiple servers, configured to scale based on CPU usage. The current configuration has a minimum size of 1 and a maximum size of 5 servers, designed to launch and spread the instances across 3 Availability Zones (AZ). During a low utilization period, an entire AZ went down, and the application experienced downtime. What can the IT associate do to increase the availability of the application?

A. Increase the minimum to 2

B. Change to scale based on number of requests

C. Decrease the AZs to 2

D. Increase the maximum to 6

Correct Answer: A

QUESTION 4

Which of the following commands is used to detach a mounted filesystem or storage device?

A. umount

B. mount

C. mkfs

D. fsck

Correct Answer: A

QUESTION 5

An IT team is currently implementing a custom software platform to address some key needs of the company. Which of the following is considered a functional requirement?

A. Identifying the purpose of the proposed system

B. Identifying the users of the proposed system

C. Identifying the development methodology

D. Identifying the technology stack of the proposed system

Correct Answer: A
