Following Questions and Answers are all new published by SOA Official Exam Center

QUESTION 1

What is wrong with this statement: "We delivered two services last year. Even though each service was delivered by a separate project team in a different location and at a different time, I am confident that the services will be reasonably interoperable because each project team was asked to use the same design standards."

A. The statement is incorrect because services should never be delivered by different project teams.

B. The statement is incorrect because services rely on post-implementation integration effort in order to achieve interoperability, not design standards.

C. The statement is incorrect because SOA delivery projects require that services be created at exactly the same time in order to guarantee interoperability.

D. There is nothing wrong with this statement.

Correct Answer: D

QUESTION 2

Project Team A delivers Domain Service Inventory A with 20 services. If Project Team B delivers Domain Service Inventory B with 50 services, how many services are in the Enterprise Service Inventory?

A. 20

B. 50

C. 70

D. An enterprise service inventory is not comprised of domain service inventories.

Correct Answer: D

QUESTION 3

The use of services tends to the size of service compositions.

A. autonomous, increase

B. stateless, decrease

C. scalable, decrease

D. agnostic, increase

Correct Answer: D

QUESTION 4

A Service Level Agreement (SLA) is a common machine-readable document that is considered part of the technical service contract. Select the correct answer.

A. True

B. False

Correct Answer: B

QUESTION 5

Service-oriented computing advocates establishing a technology architecture with increased vendor technology diversity, which means that service-oriented solutions need to be consistently built using different vendor technologies and products. This way, the failure of any one vendor technology or product will not bring down all services within a service inventory. Select the correct answer.

A. True

B. False

Correct Answer: B
